

# Valve Services

Valves, Suction Under loaders and Clearance Pocket

Since 1982, Best-Aire, LLC has been manufacturing and supplying quality parts for gas, air and manufacturing industries. With over 50,000 square feet of facility and warehouse space, Best-Aire is capable of supplying the highest quality of service and products to customers on short-term notice, quickly and easily. Best-Aire is dedicated to providing the finest reliable parts and services at the most competitive prices.

## Quality Workmanship

Best-Aire can rebuild your worn or old valves to meet or exceed OEM specifications. Best-Aire has the expertise to maintain your valves by total cleaning, inspections, and determining the thickness and hardness of your valves. Our specialized technicians inspect valves by Mag Particle. Best-Aire's quick and reliable service will get the job done, we have you covered!

## Expertise

Regardless of the service condition your valves operate in, we offer the experience and support to repair a wide variety of valves. Best-Aire continues to follow strict guidelines and procedures to return any valve to its original specifications. Best-Aire has set quality control procedures to further guarantee each valves performance is at its optimum. Best-Aire is not afraid of variety and has broad experience with a wide range of compressors.

In addition to rebuilding valves, Best-Aire can surface grind seats, guards, remove steps in Worthington guards, maintain guard profile and replace parts such as: guards, seats, springs, Teflon, channel and spring sets, Teflon nubs, plastic-metallic, and feathers.

- Not afraid of Variety
- Total Cleaning
- Material Upgrade
- Competitive Rates
